

PILOUS

Brno 3.11.2025

To whom it may concern

The **A-GNG-F** band saw type we have never manufactured and do not manufacture, it is likely part of the designation of a competitor's machine.

The **SHI-LP-F** band saw type we have never manufactured and do not manufacture, it is likely part of the designation of a competitor's machine.

The **ARG 230** band saw type was indeed a product of Pilous, but we have not manufactured it for about 25 years.

Since we have not received any document for any of these models to date — such as a purchase invoice or the machine's serial number — we are unable in any way to identify from whom and by whom these machines were purchased. Given the senselessness of the entire campaign, we strongly request that our company Pilous be removed from your records. This is very unprofessional work. I am very sorry and saddened that we are forced to deal with these matters.

On behalf of Pilous company
